### Fiberglass Cloth Silicone Tape

#### Product Data:

<b>Backing</b>	Glass Cloth	0,127 mm
<b>Adhesive</b>	Silicone	0,051 mm
<b>Adhesion</b>	From Stainless Steel	5,6N/25 mm
<b>Color</b>	white	
<b>Temperatur Resistance</b>	+260°C	

#### Description:

A high tensile woven glass cloth with heat resistant silicone adhesive used as an overspray for plasma/thermal masking. The pre-cured system provides excellent solvent and heat resistance.

#### Features:

- Removes with no adhesive residue
- Available on liner for die-cutting applications

#### Application Notes:

Use this product for high temperature masking in extreme conditions. It is often used for electrical insulating applications such as coil winding and electrical motor insulations where service temperatures may be high. The fiberglass tape remains flexible and maintains its adhesion in very cold conditions. The well-cured adhesive is resistant to chemicals and solvents, while maintaining an excellent mix of adhesive properties.
